

Dear Specialty Sound & Vision Dealer,

***Here's our wrap-up of 2011 CES and the products you'll want to sell this coming year!!!***

**Anthony Gallo Acoustics** ...demonstrated their new Classico line of "Traditional" box loudspeakers. With prices starting well under \$1K, the line of four stereo speakers, one center channel and a subwoofer, these small, attractive and highly efficient speakers should make Gallo performance accessible to a new and larger audience.

**avielo by projectiondesign**...featured the "World's First" 2.35:1 projector, the optix SuperWide 235, which displays content natively at 1080P vertical resolution...no anamorphic lens needed!!!

**dCS Ltd**...showed their new Debussy 24/196 asynchronous USB DAC, fresh from the cover of this month's *Stereophile*.

**Harmonic Resolution Systems (HRS)**...was evident in over a dozen manufacturers' suites. Given that HRS sells rather than loans these, that's an incredible vote of confidence! NEW products included their SXR Cable Organizer and DPX Damping Plates which increase mass, damping and rigidity.

**HEGEL Music Systems**...introduced their NEW top of the line P30 pre-amp, the gargantuan H30 1100 watt reference mono amplifiers which produced some of the best sound at the show. Their NEW entry level HD2 USB DAC offered incredible sonics and flexibility for under \$400.

**Musical Fidelity**...demoed the V, M1, M3, M6 and AMS-series and the ALL-NEW V-LINK, M1 CLIC, M6 500i and AMS 100 amplifier.

**Mystère**...*The Absolute Sound's* Best Preamplifier of the Year--the Mystère ca21—was making beautiful music with their stunning pa21 power amplifier. At less than \$5,500 MSRP, this combo redefines both state-of-the-art and state-of-the-wallet!!!

**NAD**...unveiled the next generation of their upgradeable MDC (Modular Design Concept) A/V receivers and pre-pros including the T187, T787, T775 "HD2" and T765 "HD2". NAD will also show the NEW VISO 3, a CD-based VISO system.

210 Summit Avenue Suite A-16, Montvale, New Jersey 07645 • P-201-690-9006 F-201-882-0176

**Nordost**...introduced the NEW entry-level Leif series of cables, which replaces Red Dawn, Blue Heaven and Wyre Wizard. Also shown was the NEW USB Cable!

**PrimaLuna**...showed the highest-value, highest-performance tube electronics available today including the NEW ProLogue Premium line, which adds superior protection circuitry and fast-recovery diodes. Quickly becoming the most popular brand of tube electronics available!

**PS Audio**...debuted of their next-gen Power Plants; the PerfectWave P5 and P10. As well as four new, lower-priced PerfectWave Digital components.

**Simaudio**...featured several new MOON Evolution series models, including the 850P preamplifier and the 880M mono power amplifiers. The CD 3.3 and I 3.3 are being replaced by new models with identical performance but slightly upgraded cosmetics, so be sure ask Dylan or Anthony.

**Spiral Groove**...In addition to *Stereophile's* "Product of the Year", the SG2 Turntable, Spiral Groove displayed their complete system including Amp, Preamp. Speakers (they now own "Sonics by Joachim Gerhard") and cabling. Today's state-of-the-art, one-brand system!

**Straight Wire**...demonstrated their NEW high-end Expressivo, Virtuoso R, Virtuoso H and Crescendo II cables, NEW USB Cables as well as the "Custom Installer's Best Friend", their time- and money-saving Push Prong Connectors and Silver 23 Cable System.

**THIEL**...enticed attendees their NEW SCS4T tower loudspeakers, the long-awaited Tower version of the SCS4. Shipping late January.

**Totem Acoustic**...debuted their NEW Element Series, featuring their proprietary Torrent magnet technology. Visitors agreed that this was the finest sound in Totem's rich history, and some of the Best Sound at the Show!

**Wisdom Audio**...debuted their NEW reference-level "Wisdom Series" LS4 (\$100K for a complete system) , a planar magnetic line source employing Wisdom's newly developed, high efficiency, ultra high output planar magnetic module. At the opposite extreme, Wisdom Audio also introduced their upcoming Insight Series of affordable High-End architectural speakers.
